

The ultimate Touch Panel Controller

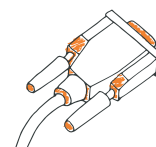

You asked for it. We made it.

The Neets Control – TanGo™ is a powerful control system enabling intuitive control through touch panels or standard browsers.

For easy installation and less cabling the TanGo™ comes with PoE IN and PoE OUT to avoid external PSU for both the control system and an external device like a touch panel.

It takes two to TanGo™

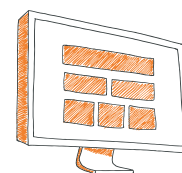

We have designed the ultimate Touch Panel Controller. Now it is up to you to bring it to life in any medium-sized conference room, learning space, or lecture hall of your choice.

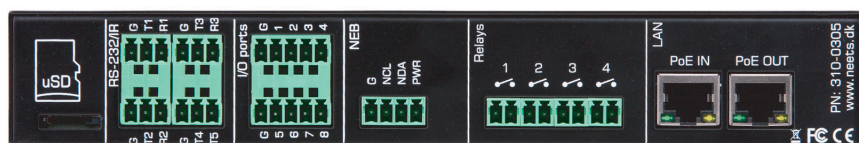

The RS-232 port opens for customization possibilities like the EQ presets for different user scenarios

Perfect match

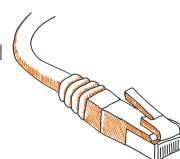

The TanGo™ is perfect for any meeting space using wall or table mounted touch panels. TanGo delivers an intuitive touch interface making it easy to start a presentation.

Enables custom graphical user interface designs made easy in Neets Project Designer

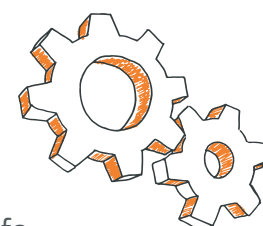

The TanGo is powered with PoE, and it even comes with PoE passthrough for touch panels

TanGo™ benefits

- Supply touch panels with power through PoE
- Integration with collaboration devices such as Barco ClickShare or Kramer VIA, and video conferencing systems from Cisco, Polycom and ClearOne
- Control external devices from low-voltage relays
- Mounting is possible in a rack or on a surface
